Organizations come to us for our global scale, quality, industry insight and deep technical expertise. But what sets us apart is our distinctive client experience which leads to more meaningful advice and a better working relationship.

Today's global marketplace is constantly changing and evolving, but dynamic businesses are agile, adapting to the environment. Auditing and financial reporting remains high on the agenda as the implications of not getting it right can be serious.

Robust reporting with independent opinion gives confidence to businesses who are constantly driving for open and transparent growth. Navigating this ever changing regulatory landscape requires a tailored, responsive approach, aligned to your specific needs and focused on addressing your key challenges and risks.

Grant Thornton has established standards, service delivery systems, controls and risk management systems to provide the necessary framework to meet professional standards.

Our approach to quality assurance is designed not only to ensure compliance with all relevant regulatory requirements, but more importantly to ensure that we deliver the absolute best to our clients every time we work with them.

Tax Services

Tax Services

Tax regulations have become, both at a national and international level, highly complex and consequently the level of difficulty in their interpretation and application has increased too.

The complexity of tax law has rendered both individuals and businesses almost helpless to come in terms with it and struggle to be tax compliant. Thus, the necessity of acquiring high quality tax services has become extremely crucial. Tax risks have to be mitigated, business opportunities need to be exploited and crucial decisions have to be taken and implemented without delay in a tax effective manner.

We provide consulting services to businesses and individuals on tax matters either on an “ad hoc” or continuous tax support basis.

How we can help you

- Corporate tax
- Corporate tax compliance
- International tax
- Transfer pricing
- Tax controversy
- Private Client Services
- Indirect taxes
- Tax restructuring
- Diagnostic tax review
- Tax efficient supply chain planning

Let's talk about leadership

Growth Awards

"Growth Awards", envisioned and presented by **Grant Thornton & Eurobank**, aspiring to be the leading engine of business excellence in the market and **drive growth for the dynamic companies in Greece**, based on their distinctive industry performance.

Surveys

We are committed to inform clients about all recent developments in every aspect of the economic and business environment and focus on the key issues that entrepreneurs are facing.

IBR Surveys

The Grant Thornton International Business Report (IBR) is the world's leading mid-market business survey.

Launched in 1992 in nine European countries, the report now surveys more than 10,000 senior executives in 35 economies on an annual basis, providing insight into the economic and commercial issues affecting both listed and privately-held businesses.

Publications & Newsletters

We produce publications in a variety of issues regarding our services as well as on current developments and a broad range of subjects that are of interest to the business community; giving the opportunity to our executives and our customers to be informed on the latest developments.

Web Series

Grant Thornton organizes webcasts with the aim of informing our clients about issues related to Covid-19 but also highlighting all the issues that companies are interested in regarding the next day.

Books

Based on the needs of our clients, as well as given the shortage in updated and integrated Greek publications on this subject, we made an attempt to narrow this gap with the Grant Thornton IFRS books. The books were available both through the company's network and major Greek bookstores and received very good reviews.
